1 - COMPOSITION AND NUMBER OF PLACES AVAILABLE

The total number of **96** places subject to this Call for Applications will be assigned with priority to students enrolled for the academic year 2021/2022 on Bachelor's, Master's and Research Doctorate courses who are in possession of all the necessary requirements for the awarding of a Regional Scholarship for the academic year 2021/2022.

The subdivision of places between first year students and years following the first year will be determined on the basis of the number of suitable candidates in each ranking, and in any case priority will be given to students confirmed from the previous academic year, if in possession of the necessary merit and income requirements.

2 - GENERAL PARTICIPATION CONDITIONS

2.1 Who can participate in the competition

The competition is open to Italian students, students from countries belonging to the European Union, foreign students referred to in Presidential Decree no. 394 of 31 August 1999, n. 394, implementing Legislative Decree no.286 of 25 July 1998.

The allocation of places to foreign students who do not belong to the European Union may take place in compliance with the regional provisions referred to in the Decree of the Director General for Education, Training and Labour no. 21650 of 13 November 2002.

To participate in the competition, students must be enrolled or declare that they want to enrol:

- for the first time in a regular year of a Bachelor's degree, a Master's degree, or a Research Doctorate;
- a further year ("fuori corso") beyond the duration established by the respective educational system, after completion of the regular course of study for Bachelor's and Master's degree courses.

The following may also participate:

- students with disabilities equal to or greater than 66%, for a period of three semesters beyond the legal duration of the course of study attended starting from the year of first absolute enrolment;
- students who attain a Bachelor's degree by the November / December 2021 session, provided they have enrolled in the first year of the Master's degree course for the academic year 2021/2022 by **30/06/2021**.

2.2 Course Levels

The levels of the courses for which accommodation will be allocated are:

- Bachelor's Degree (three-year, first-level degree)
- Master's Degree (two-year, second-level degree)
- Doctorate (maximum level)

3 – MERIT REQUIREMENTS

3.1 General requirements

Students, in the academic year 2021/2022, must not:

- already have a qualification, obtained in Italy or abroad (including qualifications not having a legal value in Italy and with the same admission qualification), of a level equal to or higher than the course for which the place is requested for the academic year. 2021/2022;
- benefit for the same year of the course for accommodation services (or any similar contribution, in any form) provided by other public or private bodies.
- have already benefited from the accommodation services for the same course year;
- be resident in the province of Milan or in municipalities from which it is possible to reach the course center on a daily basis with travel times, by public transport, equal to or less than 90 minutes. Travel times can be checked on the Trenitalia website, the Lombardy Region site <http://www.muoversi.regione.lombardia.it> and the websites of the local transport companies.
- be hired for an indefinite period, even part time, for more than 20 hours per week, or possess a VAT number, or hold more than 10% shares in a company;
- have outstanding debts of any kind with IULM University;
- have incurred disciplinary measures imposed by the University.

Also excluded are those students who in the academic year 2021/2022:

- enrol in the first year, re-enrolling after having renounced their studies;
- are enrolled as “*fuori corso intermedio*” or “*ripetente intermedio*”;
- carry out a change of faculty or degree course or a change of university with repetition of enrolment in a course year already attended (see 3.1.2).

3.2 Academic regularity

To be considered eligible for allocation of accommodation, there must have been no interruptions in the regular progression of the years attended (transfers with repetition of the same course year, enrolments as “*fuori corso intermedio*” or “*ripetente intermedio*”, renunciation of studies) for the level of studies for which the benefit is requested.

As an exemption to this principle, if during their university studies the student had to repeat the same course year, at the same level of study attended in the academic year 2021/2022, even following the renewal of enrolment after having renounced studies in any university, Italian or foreign, the number of credits or annuities necessary to access the ranking relating to the allocation of accommodation is calculated regarding the credits available for each past year, starting from the year of first absolute enrolment, with the exception of the years when studies were suspended. **The exemption does not apply to students enrolled in the first year of Bachelor's and Master's Degree Courses, and to those enrolled in any year of the Doctorate programme.**

Absolute first enrolment means **any previous enrolment in any degree course or diploma (even other than the one attended in the academic year 2021/2022) of the same level of study for which they were enrolled for the academic year 2021/2022, in any Italian or foreign university**, regardless of the outcome of those studies (renunciation of studies, transfer, graduation, etc.) and the number of years that have elapsed since the event.

For this purpose, the student in the application must obligatorily declare the presence of any previous events mentioned above (renunciation of studies, internal transfer or transfer from another University, etc.) that led to irregularities in their studies.

3.3 Merit requirements for students enrolled in the first year of Bachelor's Degree Courses

Students enrolled for the first time in the first year of the Bachelor's Degree Courses must have obtained a high school diploma (or equivalent qualification for access to the university system) of **not less than 70/100**. Students who have obtained their diploma in a country other than Italy will be evaluated according to the diploma grade resulting from the application of the conversion formula adopted by the MIUR (MIUR note of 4/6/2007).

3.4.1 Merit requirement for students enrolled in years subsequent to the first year of Bachelor's and Master's Degree Courses

Students enrolled in years subsequent to the first year of Bachelor's, and Master's Degree Courses must **have attained the overall number of credits specified in the following table in the current course of study, deriving from exams** taken and registered by 10 August 2021:

CFUs to be acquired by 10 August 2021			
Degree Courses	Course Year		
	2nd	3rd	Last semester (1 year "fuori corso")
Bachelor's	35	90	150
Master's (*)	45	==	90
(*) The minimum number of educational credits established for Master's Degree Courses is increased by a number of credits equal to those above the 180 credits which may have been accepted at the time of the student's enrolment.			
Important: the number of educational credits necessary to access the scholarship ranking is calculated with reference to the educational credits provided for in each academic year passed, starting from the year of first absolute enrolment for each level of study, also including the academic years in which the student has repeated, for any reason, the same year of enrolment.			

For Bachelor's and Master's Degree Courses whose number of sustainable annual credits differs from the number of sustainable credits set by Ministerial Decree 270/04 (60 credits per year), for the determination of the merit requirement a criterion proportional to the merit requirement provided for in the above table, rounded down, is applied.

The exams taken, recognized as valid for determining the merit requirement, are those specifically indicated in the study plan proposed by the Faculty, or in the study plan proposed by the student and already approved, on the date of submission of the application, by the Faculty Council, pursuant to the law no. 910 of 11 December 1969.

Credits deriving from activities or exams prior to enrolment (for example the recognition of language certificates) are not considered valid for the merit requirement, even if recognized and included in the student's study plan. Furthermore, credits deriving from recovered academic requirements and from interim individual modules are not considered valid.

3.4.2 Validity of credits and weighted average

When completing the online application, you will be asked to indicate the number of credits earned and the relative weighted average. These values are defined as follows:

NUMBER OF CREDITS: applicants are required to declare the credits deriving from exams taken and regularly registered from the beginning of their studies (for the current level of studies) by 10 August 2021. Exams with marks not out of thirty are also valid. Credits deriving from off-plan exams, recovered academic requirements, from interim individual modules, and exams taken and registered before enrolment at the current level of studies (for example the recognition of language certifications) must not be considered.

WEIGHTED AVERAGE: applicants are required to calculate and declare the weighted average with reference to the exams indicated in the "NUMBER OF CREDITS" field; exams with marks not out of thirty are not to be considered. "30 e Lode" is worth 30.

To calculate the weighted average, it is necessary to multiply each grade by the value (in credits) of the exam; the sum of these results must be divided by the total number of credits considered.

Example:

exam 1	mark 26/30	value: 9 credits
exam 2	mark 30/30	value: 12 credits
exam 3	mark 18/30	value: 9 credits
exam 4	mark: approved	value: 3 credits
Total credits attained		33 credits
Total credits to consider for the weighted average		30 credits

Weighted average calculation:

26 x 9 =	234 +	
30 x 12 =	360 +	
18 x 9 =	162 +	
total	756	Weighted average: 756 / 30 = 25.20

3.5 Students with disability

For students with a disability equal to or greater than 66%, individual merit requirements can be defined, based on the type of handicap, which may deviate from the values of point 3.4 up to a maximum of 40%. The merit requirements will be established by a specific Commission and by consulting the professor delegated for the inclusion of students with disability.

4 – INCOME REQUIREMENTS

4.1 I.S.E.E. for university services

The economic conditions of the family unit of the student applying for the scholarship are identified on the basis of the University Equivalent Economic Situation Indicator (I.S.E.E. for university services) referred to in Prime Ministerial Decree no. 159 of 12/05/2013, "Regulation concerning the revision of the methods of determination and the fields of application of the Equivalent Economic Situation Indicator (ISEE)".

The student requesting the scholarship must be in possession, in sufficient time with respect to the deadlines for submitting the scholarship application, of an ISEE certificate for university services (not an ordinary ISEE) whose Self Declaration (DSU) has been signed on the basis of current legislation on a date after 1 January 2021.

The Self Declaration (DSU) is the document that contains the information regarding personal details, income and assets necessary to describe the economic situation of the family unit for applying for subsidized social benefits, and serves to provide information useful for calculating the ISEE.

According to Presidential Decree 445/2000, whoever signs the DSU is civilly and criminally liable for the correctness and completeness of the data contained therein.

The I.S.E.E. is calculated using the economic situation indicator (given by the sum of all incomes, including those exempt from IRPEF with the exception of welfare, social security and indemnities received from public administrations due to the condition of disability (Legislative Decree no. 42/2016 art. 2 sexies, paragraph a), received by the members of the family unit, increased by 20% of the assets) in relation to the number of members of the family unit and to some characteristics of the same (scale of equivalence).

$$\frac{\text{ISEE} = (\text{sum of income net of deductibles}) + 20\% (\text{sum of assets net of deductibles})}{\text{Equivalence scale parameter}}$$

The equivalence scale indicates an increasing parameter related to the number of family members. The parameter is increased in the presence of some characteristics of the nucleus that are relevant in this context: presence in the family unit of disabled members; presence in the family unit of more than two dependent children; working parents and minors, in particular if under the age of three; single-parent units.

For the academic year 2021/2022 the income and the financial position to refer to are those of the calendar year 2019.

Complete information relating to the ISEE can be found on the website www.inps.it.

The applicant student or a family member can submit the DSU electronically directly to INPS, by connecting to the website www.inps.it. The ISEE portal is available in the section "Online Services" - "Services for the citizen", which can be accessed using the PIN device issued by INPS. The procedures for issuing the PIN are described in the "PIN online" section of the INPS website.

The DSU can also be presented to a tax assistance centre (CAF) or to the INPS office responsible for the area.

In order to facilitate citizens in entering the data needed for calculating the ISEE, in January 2020 the **precompiled DSU** was introduced, characterized by the coexistence of self-declared data by the citizen with other data provided by the Inland Revenue and INPS (the so-called precompiled data). The precompiled DSU is made available to citizens through the INPS online services, which the applicant can access directly or, by granting a specific proxy, through the CAF..

The citizen must self-declare the data not available in the administrative archives: the composition of the family unit, disability and non-self-sufficiency, house ownership, any residual mortgage, the periodic cheques paid or received for spouse and children, the movable assets and real estate held abroad, the net asset value for sole proprietorships, agricultural or building lands. In general, the precompiled information in the DSU can be accepted or, where incorrect or incomplete, must be integrated or modified (for example by adding a financial report or a building that is not present). It is the responsibility of the declarant to modify or integrate the precompiled data in the event that they have changed or are incorrect (INPS Circular No. 96 of 13/01/2020).

The issuance by the CAF of the ISEE certificate for university services is free, since ANDISU, of which IULM University is an associated body, has signed a memorandum of understanding in this regard with the National Council of CAFs. To find the most accessible CAF in your place of residence, you can consult the website www.consultacaf.it.

The DSU, at the time of submission, contains only self-certified information. The declarant will receive, from the acquiring entity (INPS, CAF), a receipt of successful presentation but not the calculated ISEE. For the calculation of the ISEE, it is necessary to complete the acquisition of other data by INPS and the Revenue Agency (maximum 15 days). Therefore, it is the responsibility of the interested party to come into possession of the ISEE certificate with the relative protocol number and the note "To be applied to subsidized services for the Right to University Education", in time for the deadline for entering online the data required to complete the scholarship application. **ISEE certifications will only be considered valid if the date of the signing of the DSU is after 1 January 2021.**

Failure to submit a university ISEE signed by the date of publication of the ranking in the INPS database will result in exclusion from the assignment of accommodation in all the rankings.

4.2 Income and capital limits

To be considered in possession of the income requirements necessary for the application for the granting of the scholarship, students must have, concerning the income for 2019 and the financial position for 2019, a university ISEE whose:

- ISPE indicator (obtained by dividing the ISP value on the Certificate by the equivalence scale) does not exceed **€ 50,000.00**.
- ISEE indicator does not exceed **€ 23,000.00**.

The two limits indicated must be respected jointly; exceeding even just one of them entails non-possession of the income requirement.

IMPORTANT - The two ISEE and ISPE values indicated above may be updated following the issuance of the regional resolution on interventions for the Right to Study for the academic year 2021/2022. These values may be specified with an addition to this notice which will be published in July 2021 on the University website, in the Financial Aid section.

For the definitions of family unit, independent student, married student, special cases, and for the assessment of the economic and financial situation of foreign or Italian students residing abroad, please refer to the Call for Applications for the granting of the Scholarship for the academic year 2021/2022, available on the website www.iulm.it, Financial Aid section.

5 – FORMATION OF RANKINGS

To be admitted to the final rankings, **applicants must be duly registered or enrolled for the 2021/2022 academic year by the following dates:**

- students of the first year of Bachelor's and Master's degree courses: **enrolment by 30 June 2021.**
- students of the first year of Doctorate courses: **pre-enrolment in the admissions competition by 30 June 2021;**
- students who renew their enrolment for years subsequent to the first year of the Bachelor's, Master's and Research Doctorate courses: **enrolment by 24 September 2021**, under penalty of immediate withdrawal of the allocated accommodation.

5.1 Students enrolled for the first time in the first year of all degree programmes and in doctorate courses

The ranking is formulated on the basis of the ISEE for university services of the family unit in relation to the limit of € 23,000.00 for a maximum of 1,000 points assigned with the following formula:

$$\left(1 - \frac{\text{Student's university ISEE}}{(23.000,00)} \right) \times 1000$$

The order in the ranking is determined, in descending order, with respect to the assigned score. In the case of equal scores, the younger age prevails.

5.2 Students enrolled in years subsequent to the first year of all Bachelor's and Master's Degrees courses

The order of the ranking is determined, in descending order, by the overall score resulting from the sum of the score relating to the number of educational credits attained by 10 August 2021, and the score determined by the weighted average mark of the exams. The total points that can be attributed are 1,000 distributed as follows: 600 based on the number of training credits attained and 400 based on the weighted average grade of the exams passed.

In the case of equal merit scores, the student who has not used the bonus prevails in the ranking and subsequently the student with the highest score regarding the economic situation. In case of further equality, the younger student prevails.

The score relating to the educational credits obtained, relating to exams taken and registered by 10 August 2021, is calculated according to the following formula:

$$(\text{Student's credits} - \text{Minimum credits}) \times \frac{600}{(\text{maximum credits} - \text{minimum credits})}$$

The score related to the **weighted average grade** of the exams taken and registered by 10 August 2021 is calculated according to the following formula (the grade "30 e lode" is counted as 30):

$$(\text{Student's weighted average} - 18) \times \frac{400}{(30-18)}$$

Priority will be given in the allocation of accommodation to students with disabilities equal to or greater than 66%. For the assignment of the 4 single rooms for students with motor disabilities, a special commission will meet.

Subsequently, the assignment will be **confirmed** for the student assignees in the academic year 2020/2021 who have stayed at the university residence for a period of not less than 6 months, if in possession of the merit and income requisites.

Finally, the assignment will be **confirmed** for student assignees in the academic year 2020/2021 who have stayed at the university residence for a period of not less than 6 months, if in possession of only the merit requisites.

9 – ACCOMMODATION COSTS, METHODS OF PAYMENT, WITHDRAWAL

9.1 – Subsidised Admission

85 students (65 at the Santander residence and 20 at Cascina Moncucco), also applying for a regional scholarship for the academic year 2021/2022, in possession of all the requirements for the assignment of the same scholarship, will be admitted to the Residence upon payment of **€ 677.00** to cover the total service, from September 2021 to July 2022.

The payment of the single subsidised fee of **€ 679.00** (including stamp duty to be affixed on the invoice) must be made, following procedures expressly specified by the *Ufficio Tasse - DSU* by **10 September 2021**.

The sum of **€ 2,403.00** will be deducted from the amount of the scholarship of students who are beneficiaries of a scholarship for the academic year 2021/2022, also following an extended ranking. Students who, even as a result of an extended ranking, remain **eligible as non-beneficiaries**, will be required to reimburse the annual fee, equal to € 2,403.00.

The subdivision of the 85 students between freshmen and students in years following the first year will be determined on the basis of the number of eligible candidates in each ranking, and in any case priority will be given to students confirmed from the previous academic year.

Students enrolled **in the first year “fuori corso”** will benefit from special conditions for 6 months (September 2021 - February 2022).

For students enrolled for the first time in the first year, if they reach a sufficient number of credits only upon confirmation of the first instalment of the Scholarship, the subsidised accommodation will be granted at a rate of 50%. These students will therefore be required to reimburse the sum of **€ 1,201.50** for fees.

For students enrolled for the first time in the first year, if they do not reach a sufficient number of credits to confirm the first scholarship instalment, a refund of the sum of € 2,403.00 per fees will be requested.

A student who is the beneficiary of a grant and who withdraws early is not entitled to reimbursement of the unused part of the accommodation subsidy.

IMPORTANT - The annual value of the subsidised accommodation service (€ 2,403.00) may be updated (and consequently the amount of the single subsidized fee of € 677.00) following the issuance of the regional resolution on interventions for the Right to Study for the academic year 2021/2022. This amount will eventually be specified with an addition to this notice which will be published in July 2021 on the University website, in the Financial Aid section.

9.2 – Full-rate admission

The annual accommodation fee is set at **€ 4,400.00** to fully cover the service, from September 2021 to July 2022

Fees must be paid in **three instalments**, to be made following the procedures expressly specified by the *Ufficio Tasse – DSU* within the following deadlines:

- **1st instalment € 1,602.00** (including revenue stamp to be affixed on the invoice) **by 10 September 2021**;
- **2nd instalment € 1,202.00** (including revenue stamp to be affixed on the invoice) **by 10 January 2022**;
- **3rd instalment € 1,602.00** (including revenue stamp to be affixed to the invoice) **by 10 April 2022**.

By accepting the place, the student undertakes to pay the fee for the entire assignment period.

The fees paid and not used, due to early withdrawal, will not be reimbursed, except as indicated in paragraph 9.3 points a) and b).

Guests are required to keep the invoices certifying the payments in order to be able to check dates of payment. In the event of late payment, legal interest rates will be applied. In the event that the delay in payment lasts for more than one month, the students university studies will be frozen administratively and the assigned place will be revoked.

9.3 – Withdrawal

Any application for early withdrawal with respect to the end date of the assignment of the accommodation must be submitted through the SPORTELLO TASSE – DSU – Dimissioni on line alloggio within the following deadlines:

- a) **10 September 2021, for immediate check-out.** Early withdrawal on 10 September 2021 with immediate check-out will result in the loss of the security deposit of € 500.00.
- b) **30 September 30 2021, for immediate check-out.** Early withdrawal on 30 September 2021 with immediate check-out can only concern students enrolled in the academic year 2021/2022 who renounce completing their studies. Such withdrawals will result in the loss of the security deposit of € 500.00 as well as the charge of the accommodation fee only for the month of September.
- c) **15 December 2021, for check-out by 31/12/2021.**
- d) **15 March 2022, for check-out by 31/03/2022.**

The refund of the security deposit, at the end of the assignment period, will take place within 60 working days following the date of granting of the accommodation, by crediting the University Ateneo Più Card in the name of the student, without prejudice to the student's request to leave it on deposit for the following academic year.
